DEPARTMENT OF CHEMICAL ENGINEERING

CIRCULAR

It is hereby informed that there will be an orientation session on Entrepreneurship organized by ANITS – IICHE Student Chapter of Chemical Engineering Department and ANITS IIC, by Dr. Nagaveni Chokkavarapu through online on 30/07/2021. All the faculty and students are invited to attend the lecture.

Topic: Entrepreneurship-A way forward

Resource Person: Dr. Nagaveni Chokkavarapu

Managing Director, Allinaza techno Consultancy, Hyderabad

Date: 30/07/2021

Venue: Through Online

Time: 02:00PM

Flyer: Orientation Session on Entrepreneurship-A way forward

This session was honoured by Dr. Nagavani Chokkavarapu who is the managing director of Allinaza Techno Consultancy, Hyderabad. Her main agenda for this orientation session is to inculcate the entrepreneur skills among the students. She discussed about various problem solving ideas and disruptive thinking. She exemplified her views about the opportunities for budding entrepreneurs during this pandemic. Her ideas on building up a startup was though provoking for many students and she clarified all the doubts put up making it an interactive session.

QUALITIES FOR AN ENTREPRENEUR

Three basic concepts an entrepreneur should understand before starting:

1. Don't afraid of failures : You vision should be broad and very huge. It should not be an earn a living or a luxurious life. It should be far away from this and objective and goal oriented. Every successful entrepreneur had a series of failures. Only with these failures you will derive strength. Success never comes all at once. Like a wheel goes up and down so is the success and failures.
2. Don't Pause : Never stop. You have to be updated and keep your self very much dynamic to face real challenges.
3. Derive strength from Problems : your problems are your strength. Consider your problems to be the path for your strength. Problem solving approach will automatically increase this strength. A sailor never ever stops in the middle of the sea as he knows there are waves, danger but he knows that he has to reach the other side. So he never stop in between.

WHO SHOULD BE THE PARTNERS IN STARTUP?

- > MUST BE 3-4 MEMBERS FORM A GROUP
- > THEY MUST BE FROM DIFFERENT EDUCATIONAL BACKGROUNDS
- > MULTI DISCIPLINARY NATURE OF PROJECTS NEED EXPERTISE FROM DIFFERENT BACKGROUNDS
- > EX. SOIL MOISTURE SENSOR - ELECTRICAL ENGINEERING AND SOIL SCIENCES

WHAT IS MEANT BY INNOVATION?

INNOVATION AS THE CREATION OF NEW KNOWLEDGE AND IDEAS TO FACILITATE NEW BUSINESS OUTCOMES, AIMED AT IMPROVING INTERNAL BUSINESS PROCESSES AND STRUCTURES AND TO CREATE MARKET DRIVEN PRODUCTS AND SERVICES. INNOVATION ENCOMPASSES BOTH RADICAL AND INCREMENTAL INNOVATION.

MARKETING FUTURE OF PRODUCT

- If it is a software related product, don't sell the product. Give it on subscription. This ensures continuity of business.
- Material based product should have maintenance annually with warranty period maximum of one year.
- Sensor based system should have upgradation with changing technology with minimal charges

FEW EXAMPLES IN COVID-19 PANDEMIC

- Low-cost portable ventilators
- Affordable COVID-19 test kits
- Drones for sanitization
- Specialized digital stethoscopes
- Disposable bamboo furniture for makeshift isolation wards
- Infection-proof fabric for hospitals
