Did you identify gap between industry and our curriculum? If yes please specify?	Pls suggest new courses /electives to be introduced	Skills acquired by you during the completion of your UG project.	List out the courses/activities helped to improve your life skills.	Any other suggestions
No	Pharmaceutical course	Water separation technique	Seminars and soft skills lab	
Yes, they must be more of interaction with the industry and learning through practical experience.	NA	Team work, ownership, Time Management		
Yes				
Yes from perspective we should have more guest lectures from industrial and also from alumni to know more about the link between academics vs industry		Analysis, Troubleshooting, Report Writing, Presenting skills	Soft Skills	
-	-	-	-	-
No	No		Electives	Everything is good
Please provide simulation course like Aspen and engineering courses like designing and processing	Processing, piping and design calculations	Analysis, open discussion	Seminars, Industrial visits, orphanage visits,	

Yes							
Petroleum engineering							
		DWSIM					
There's a lot, sir please ask students to concentrate more when they perform laboratory experiments. It will be very helpful when they go for a job. They need to mainly know the principle and application behind it.	Process Design software like ASPEN	Self confidence					
	MAT lab, C++, Python						
							I was placed in IT while I was in college we didnt have an option of choosing electives from other departments. Not sure about the current status, but I would suggest to allow students to choose elective subjects from other departments as well. <i>GAJ</i>
